
Napu Taitano

Software Developer

TaitanoNapu@gmail.com

GOAL

To use the knowledge I've gained, and will continue to gain. To make things I can be proud of, and continue doing what I love. Programming, and problem solving.

OVERVIEW

Been happily learning coding since childhood and earned a Bachelor degree in Software Development from WGU. Experienced Java, Android Development, Godot, HTML, CSS, JavaScript, Python and SQL. Proven time management skills from juggling college and work. Always excited to learn more about programming.

COMPETENCIES

- Can **design, create, and critique...**
 - A fully functional website.
 - A high quality business card.
 - A visually pleasing Logo.
 - A website based upon a company's image.

WORK

Udacity

Independant Consultant

FEB 2019- JULY 2019

As a consultant to educational platform(s), such as Udacity, I utilized my specialized knowledge in the field(s) of Android development and my strong communication skills to provide project reviews and other student support services.
