Portfolio: [mrpiedpiper.github.io/Napu-Taitano/](https://mrpiedpiper.github.io/Napu-Taitano/)

### GOAL

To use the knowledge I've gained, and will continue to gain. To make things I can be proud of, and continue doing what I love. Programming, and problem solving.

### OVERVIEW

Years of interest and activity and education in the field of technology. Earned a Bachelor degree in Software Development from WGU. Worked as a Coding Instructor for Mastery Coding students, and a Mentor for Udacity students. Years of experience with Windows, Android phones and various programming languages. Experience with Linux operating systems such as Raspbian and Ubuntu. Proven time management skills from juggling college and work.

### COMPETENCIES

- Familiar and comfortable with public speaking
- Can **design, create, and analyze**
  - Java programs.
  - An Android application with a wide array of features.
  - Godot games and tools/software.
  - SQL queries.
  - A fully functional website.
  - A high quality business card.
  - A visually pleasing Logo.
  - Website design/flow
- Proficient with Windows and Android.
- Regularly use Linux (Ubuntu KDE/GNOME, Raspbian).
- Experienced with Java, Android Development, Javascript, HTML, CSS, JQuery, Godot and SQL.
- Familiar with various office software such as Google Docs/Sheets/Slides.
- Skilled with Adobe Photoshop, Illustrator, Dreamweaver and InDesign as well as Affinity Photo, Designer and Publisher.

## EDUCATION

**Western Governors University, B.S.** Computer

- *Degree*

SEPTEMBER 2017 - FEBRUARY 2021

Bachelor of Science Software Development

- *Degree*

SEPTEMBER 2015 - JUNE 2017

ATA Multimedia-Web Designer degree.

---

**Udacity, Nanodegree** Computer

- *Nanodegree*

JANUARY 2018 - OCTOBER 2018

Grow With Google Android Developer Nanodegree

---

**CompTIA, Certification** Computer

- *Certificate*

SEPTEMBER 2020

CompTIA Project+ Certification

**CompTIA, Certification** Computer

- *Certificate*

DECEMBER 2018 - DECEMBER 2021

CompTIA A+ Certification

More certificates available upon request.

## WORK

**Mastery Coding**

Coding Instructor

OCT 2022 - MAY 2023

While working with Mastery Coding, I oversaw all instruction for multiple classes of students. This included reviewing and grading assignments, regularly hosting both 1:1 and class Zoom meetings, regularly communicating with students/teachers/parents, and ensuring that student information was kept confidential.

**Udacity**

Independant Consultant

FEB 2019 - JULY 2019

During my time at Udacity, I assisted a group of students as they worked through their course study at Udacity. This included making myself readily available for questions and discussions, hosting weekly webinars, customizing schedules and progress check-ups.
