Napu Taitano

Software Developer

[TaitanoNapu@gmail.com](mailto:TaitanoNapu@gmail.com)

## GOAL

To use the knowledge I've gained, and will continue to gain. To make things I can be proud of, and continue doing what I love. Programming, and problem solving.

## OVERVIEW

Years of interest and education in the field of technology. Earned a Bachelor degree in Software Development from WGU. Years of experience with Windows, Android phones and various programming languages. Limited experience with Linux operating systems such as Raspbian and Ubuntu. Proven time management skills from juggling college and work.

## WORK

**Udacity**

Independant Consultant

FEB 2019- JULY 2019

As an Udacity employee, I assisted a group of students as they worked through their course study at Udacity. This included making myself readily available for questions and discussions, hosting weekly webinars, customizing schedules and progress check-ups.
